Website: <http://www.sffo.film/>

The Santa Fe County Commissioner District 3 is Camilla Bustamante. cbustamante@santafecountynm.gov or her phone is (505) 690-3174.

Jennifer Martin is on the Galisteo Community Association board is the village liaison for the film office. Questions and inquiries should be made to her. We would appreciate it if you can share any scheduling and activities to Jennifer and she can alert the board to post notices on the email blasts and/or bulletin board by the mail boxes. Jennifer Martin can be reached at Cell (303) 506-8140 or House (402) 489-2836 or email at jenniferjeanmartin@gmail.com

If there are any major problems that the film office or film crew is not taking care of with notice. The Santa Fe County Sheriff Department can be contacted at (505) 428-3720.

Film Guidelines

Compensation

With filming projects they sometimes want to use a house or location. Agreements should be made in advance before production starts. Those negotiations will be made by the property owner and the film production team. It is very important to take into consideration neighbors and how filming might impact them. Night shooting, lights and traffic along with parking should be noted and shared with the Galisteo Community Association to alert the village of any upcoming activities.

Retainers

It is common practice to require a retainer from production companies in case there is any kind of damage to roads or compensation for issues not held up in a contract. Please

contact Jennifer Martin in the village for more information and to help post notice to any neighbors.

Existing Movie Sets

Silverado film site is just south of Galisteo. Located at the Cerro Pelon Ranch, 5547 Highway 41.

The San Cristobal Ranch site is just east of Galisteo. Access through La Otra Vanda is not allowed as the road can not take heavy loads. Access should be done from Hwy 285 or up by the rodeo grounds.

Film Guidelines

Major Issues

Traffic and Roads

The Galisteo bridge is not designed for large trucks or loads and has a weight limit.

La Otra Vanda is a private road, not county, and can not handle large trucks or semi traffic. Old water lines run underneath the roads for the village water source and heavy loads can damage the village infrastructure.

Traffic running into the village also creates noise disturbance for those who live near by. Also the vibration of larger trucks is damaging to the older buildings in the area and we have had complaints of adobe walls and ceilings crumbling from heavy traffic.

Also any parking in the village should have notice to let folks know they have permission. We suggest to limit the number of vehicles and shuttling film staff.

Night Shooting and Lights

Lights and noise issues have happened in the past. Western gun shooting without warning the neighbors can be serious problem for neighbors on the East side of Galisteo. It is imperative that notice be given to the neighbors so as not to scare them or call the sheriff to report gun fire. Also, lighting can also be a problem if it reflects towards the neighbors near the set.
